

Beeraka Mohan Mani Shankar

mohanmanishankar01@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

B.Tech student specializing in AI & ML with a focus on Data and Business Analytics. Hands-on experience with SQL, Python, Power BI, Excel, and PostgreSQL for data cleaning, EDA, KPI analysis, dashboard development, and business reporting. Experienced in supply chain and operational analytics with automated data pipelines using n8n.

Technical Skills

Data Analytics: Python, Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis

Business Analytics: KPI Analysis, Trend Analysis, Business Reporting, Data Visualization, Operational Analysis

BI & Visualization: Power BI, Excel, KPI Dashboards, Interactive Reports

SQL & Databases: SQL, PostgreSQL, Joins, CTEs, Aggregations

Data Automation: n8n, API Integration, JSON, Workflow Automation

Tools: Git, GitHub, VS Code

Experience

Data Analytics Intern

May 2025 – Jul 2025

Technical Hub Pvt. Ltd.

- Analyzed datasets using SQL and Excel to identify trends, anomalies, and patterns for data-driven reporting.
- Developed Power BI dashboards with KPI cards, interactive filters, and visual reports to support business analysis.
- Performed exploratory data analysis and data preparation to improve the quality and usability of analytical reports.

Campus Ambassador

Sep 2025 – Dec 2025

GUESSS India

- Promoted the GUESSS entrepreneurship survey through campus outreach and student communication.
- Coordinated with organizers and student groups to improve survey participation and distribution.

Projects

AI Data Quality ELT Pipeline

GitHub

n8n, Python, PostgreSQL, REST APIs

- Built an automated ELT pipeline to extract data from external APIs, validate and transform records, and load structured data into PostgreSQL.
- Designed n8n workflows for automated data ingestion, data-quality validation, transformation, and scheduled execution.
- Used Python and SQL for data cleaning, validation, transformation, and preparation of datasets for downstream analytics.

Supply Chain & Supplier Analytics Dashboard

GitHub

Power BI, Excel, Supply Chain Analytics

- Analyzed supplier costs, transportation modes, defect rates, and inventory levels to identify cost and operational patterns, then presented findings through an interactive Power BI dashboard.
- Compared supplier-level costs and stock distribution to support focused supplier and product-level analysis.

Fitness & Wellness Analytics Dashboard

GitHub

Power BI, Excel, Data Analytics

- Analyzed member activity, trainer allocation, visits, active minutes, calorie expenditure, and membership plans.
- Developed Power BI KPI cards and trend visualizations covering members, visits, age, membership plans, and activity levels.
- Examined relationships between physical activity, steps, and calories burned across demographic groups.

Bandit Browser Extension

GitHub

JavaScript, Browser Extension APIs, REST APIs

- Built a Browser extension to simplify and automate browser-based tasks through an interactive interface.
- Implemented browser interactions and API-based functionality using JavaScript and Chrome Extension APIs.

Certifications

SnowPro Core Certification – Snowflake

HackerRank SQL (2-Star)

Python Essentials – Cisco Networking Academy

Working with Claude APIs

Agent Skills Fundamentals

Basics of Model Context Protocol (MCP)

Practical Implementation of Claude Code

Education

B.Tech in Artificial Intelligence & Machine Learning

2023 – 2027

Aditya Engineering College

CGPA: 7.55
